My favorite gift

We often get some gifts from our families of friends on special days. My favorite gift that I've ever received is a album

I received the album from my parents as my 15-year-old birthday present.

Being my favorite gift which contains a great number of photos, the album means a lot for me.

Because it is **not only** an album, **but also** a collection of memory.

Every time I open the album, **looking at** the familiar faces, I **regain** power from my family and learn to **cherish** the people around me, especially when am alone or homesick.
